

How to Measure for a Westland Outboard Motor Hood

Westland uses A, B and C to determine the correct size motor hood.

A = Length along the long side of the motor.
 B = Height of the motor cowling that is covered.
 C = Width of the motor from side to side.

Example:

UMH100R-26 is an Extra Small Universal Motor Hood in Sharkskin Supreme Fabric (R) in color Navy (26), with dimensions of A 17"L x B 14"H x C 12"W.

Search for part number UMH100 to find your correct motor hood.

Westland Outboard Motor Hood Size Chart

SIZE	LENGTH (A)	HEIGHT (B)	WIDTH (C)	PART #
XSM – EXTRA SMALL	17	14	12	UMH100
SM - SMALL	22	18	16	UMH101
MED - MEDIUM	30	24	20	UMH102
LG - LARGE	35	30	34	UMH103
XLG – EXTRA LARGE	39	32	28	UMH104
